DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.
3. Claim 1 recites the limitation "the resilient bands" in line 1, claim 2 recites "the joint portion" in line 1. There is insufficient antecedent basis for these limitations in the claims.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Chiang (U.S. 5,802,620). Chiang discloses the invention as claimed. Chiang teaches a swimming mask with resilient bands 30 formed integrally to both sides of the mask

body. A joint portion of between mask body and bands are enlarged and the ends of the band can be connected integrally or the ends can be forked into two string as desired.

Conclusion

6. The prior art made of record on the attached PTO-892, and not relied upon, is considered pertinent to applicant's disclosure.
